

A close-up photograph of a sculpture. The sculpture consists of two cylindrical forms. The upper cylinder is positioned slightly behind and to the left of the lower cylinder. Both cylinders have a highly textured, granular surface in shades of brown and tan. The lighting is dramatic, with the right side of the cylinders being brightly lit against a white background, while the left side is in deep shadow. The overall composition is abstract and focuses on the play of light and shadow on the textured surface.
